REVENUE MANAGEMENT

We take revenue management to the next level - Our hotels benefit with elevated RevPAR performance from our powerful revenue management platforms including automated rate-setting tools, market demand coefficients, airlift analysis, competitive rate shops, pick-up tracking, annual, predictive demand analysis, and segmentation & geo-targeted pricing. Complementing this technology, our Revenue Team offers annual budgeting with rolling forecasts, and sets the strategic vision for optimum seasonal sales mix and product mix for our hotels.

GLOBAL DISTRIBUTION

The hotel's best content distributed everywhere - We specialize in the worldwide distribution of our hotels' rates and availability matched with professionally curated digital marketing content, sent everywhere and updated in real-time to thousands of travel accounts around the globe.

GLOBAL SALES

We have a global reach - With sales offices on two continents, we are able to tap into otherwise untapped international markets, elevating RevPAR performance for our hotels and resorts. Throughout our history, we have developed and solidified relations with 10,000 plus global travel account partners in various market categories including leisure, corporate, MICE, permanent and government.

DIGITAL MARKETING

Elevate website direct bookings | Reduce OTA commissions - Our digital marketing department tactfully engineers beautifully designed SEO hotel websites featuring OTA rate-matching tools, online review summary tools and our Key Resort Rewards guest loyalty program. We then drive direct bookings to the site with strategically placed meta-search marketing, search engine marketing, retargeting, social media marketing, and display marketing campaigns.

BRANDING

Position for optimized performance - Aligning the property's competitive advantages (product) with its marketing message (positioning) towards the desired target markets (place) with compelling content and media (promotion) at the optimum sales mix (price) is at the heart of a sound marketing campaign.
